

- Vertically oriented freezing cylinder provides high capacity, and maximum energy efficiency.
- Large diameter freezing cylinder facilitates extremely fast freezing times, resulting in very small ice crystal formation.
- Easy cleaning and simple assembly of beater parts.
- Low cost, long wearing, NSF approved plastic beater blades minimize frequent and costly blade replacement.
- Heavy-duty stainless steel beater shaft built to withstand years of use.
- Clear acrylic freezing cylinder cover allows monitoring of product while freezing.
- Easy access to freezing cylinder when adding variegates and particulates.
- Provides thorough mixing of variegates and particulates unachievable with horizontal barrels.
- All controls and indicators conveniently grouped in a single panel, on the front of the freezer.
- All buttons and indicators identified by easily understood symbols relative to their function.
- Time/temperature controlled freezing achieves same smooth texture and product consistency across full and partial batches, a feature not possible with consistency controlled freezers.
- Swing gate style, stainless steel extraction door design provides rapid extraction of product.
- Robust 1.8 horsepower, semi-hermetic compressor, engineered for high quality and outstanding reliability.
